There was a gathering of the
Stewart families at the home
of Mr. and Mrs. Ed Stewart of
Naco on Tuesday; namely:
Mrs. Stewart, sr.; Mrs. McKen-
zie, Mr. and Mrs. R. Stewart,
Mr. and Mrs. H. Stewart and
daughter, Mr. and Mrs. N D
Stewart and daughter.

The painting of the interior
of the C.N.R. station has been
completed but the outside can
not be done at the present
time owing to the cold weath-
er.

Mr. N. D. Stewart returned
last week from Vancouver.

LOCAL NEWS

Mr. Noden who has been re-
lief station agent at Chinook
for the past three weeks left
for Calgary on Monday.

J. Massey and sons returned
from Brooks on Friday.

School Fair Meeting

A Chinook and District
School Fair meeting was held
on Saturday, Nov. 7 at 2.00 p.
m.

Members present were Mrs.
Cooley, Mrs. Wilson, Mr. Allen
and Mr. Todd.

The minutes of the last meet-
ing were read.

Mrs. Cooley-Mrs. Wilson—
that the minutes be adopted
as read.

Mrs. Cooley-Mrs. Wilson—
that the children who received
prizes in the vegetable classes
but who did not apply for
seeds in the spring be paid for
these prizes this year. It was
suggested by the directors of
the meeting that the teachers
have each pupil sign for seeds.

Mr. Allen-Mrs. Wilson—that
the Huggard District be asked
for an entry to the School Fair
for 1936 and 1937.

Mr. Allen-Mrs. Cooley—that
the Financial Statement be ac-
cepted.

Mrs. Cooley - Mrs. Wilson—
that the annual reorganization
meeting of the School Fair be
held on Thursday January 21.
Mrs. Wilson - Mr. Allen—that
the meeting adjourn.

Homework---How Much?

The present trend towards the reduction and perhaps ultimately the elimination of departmental, or external examinations for students in public and high schools is a step in the right direction, if for no other reason than that it should result as its corollary, in the reduction in the amount of homework demanded of pupils and especially those in their early teens.

Reports on the subject presented at the recent annual convention of the Canadian Education Association in Regina by a committee set up to study the subject of examinations in schools showed that the three prairie provinces, in confining departmental examinations to grade 11 and 12 students, that is, in the last two years of high school, are in the van of the movement to curtail the evils resulting from the rigidity which such a system necessarily entails.

It is not difficult to divine that the curtailment of the external examination system will result in more moderate assignment of homework in the public schools and at least in the first two grades in high school. It has already done so to some extent, but even yet there is good reason to believe that in very many classrooms, both rural and urban, too much is expected from children in school hours.

And this is particularly the case where children in the last two grades of public school and the first two grades of high school are involved. Children of these ages have reached a critical, physical formative period and during these years are laying a health foundation which will serve them good or ill in adult years. During this adolescent period, while mental development must not, of course, be neglected, physical development should not be cramped by eliminating much needed opportunities for recreation and health-giving physical activity.

With the incentive of the teacher to pile up homework for the students removed by the abolition of departmental examinations in the particular grades referred to, there is no longer any reason why children should be over-burdened, to the possible detriment of health.

This was recognized by the school medical officer of the London (England) County Council in 1929 when he wrote in his report:

"It is clear that school authorities who take it upon themselves to set work which is not done under their immediate supervision take upon themselves a very heavy responsibility. It is their duty to consider the result not merely upon scholastic advancement but upon health and physique in every individual case, and in every individual case it is their duty to ensure that in every 24 hours, there is not only time for work, for meals, for physical exercise and for sufficient sleep, but also healthful relaxation and recreation."

In a handbook for one-teacher elementary schools the State Department of Public Instruction of Pennsylvania declares:

"In primary grades home study should not be necessary. After the child has acquired the art of reading he should be permitted his own choice to take books home and return them as he chooses to do. If any home study is assigned in the intermediate grades it ought to be very limited. It should deal with such informational subjects as history and geography, and the pupil should not be held responsible the next day for having done a definite amount of work. He should be urged to read in these branches."

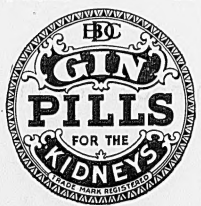

Discussing the same subject in a recent issue of Hygiene, under the caption, "Homework—The Big, Bad Wolf of Education," J. F. Rogers made the following suggestions:

"Only work that can be done without help of parents should be assigned; home study should be made a privilege; it should not be too difficult; assignments should be made according to capacity and individual needs and for variety in subsequent class work; . . . home reading should be encouraged; homework should never be assigned as a punishment."

"In brief one may expect and must expect either injury to health or the exhibition of self-protective traits if the homework is either excessive or unsuitable, and there goes along with these results a waste of time which might be spent more educationally."

Kidney Troubles

cause poisons to accumulate in the system and bring on persistent Backache, Lumbago or Rheumatism. Take GIN PILLS to help the kidneys eliminate toxic waste matter from your system.

Railways Aid Development

The greatest single factor in the development, not only of Vancouver but of the whole of Canada, had been the Canadian railway system, N. B. Walton, general superintendent of transportation, Canadian National Railways, western region said. He addressed the transportation and customs bureau of the Vancouver board of trade at a meeting commemorating the 100th anniversary of steam railway transportation in Canada.

An inventor has combined an electric lamp and clock having two upper parts that revolve against a needle, the upper end of which points to hour marks and the lower to minute marks.

Unbuilt Liner Insured

Large Sum Placed On The Queen Mary's Sister Ship

The Cunard-White Star Line announced that Benjamin Wistar Morris, New York architect of the firm of Morris & O'Connor, had been retained as a consultant on the decorations of the projected new sister ship to the Queen Mary.

Grey Wornum, a Londoner, who designed the prize-winning building of the Royal Institute of British Architects, on Portland Place, has been appointed decoration architect of the new vessel. Mr. Wornum is one of a committee of three recently appointed to plan London's coronation decorations.

Insurance of more than \$3,250,000 has already been placed by British underwriters on the Queen Mary's sister ship, whose keel will soon be laid at the John Brown shipyard, Clydebank.

This is easily the largest amount ever placed on a single merchant ship in the course of its construction. Brokers in London are confident that the total amount to be accepted in the market will exceed \$3,500,000, thus leaving less than \$1,000,000 to be made up by the government.

Important London companies that declined to participate in the Queen Mary's insurance have taken large amounts on the new ship. A number of large firms in Liverpool, however, have thus far refused to accept their share, although it is hoped that they will come in before the books are closed.

The coverage will take effect at the beginning of next year and run for not more than 36 months. Building risks are distinct from service risks and apply only while ships are under construction.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of fluid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Can't shake the yolk out of your stomach? You get constipated. Harmful poisons go into the body, and you feel worn, rank and the world looks black.

A more powerful movement cleans 'always get the case. You need something that works on the liver as well. It is called Carter's Little Liver Pills. To get these two pounds of bile flowing freely and make you feel 'up and up.' Harmless and gentle, they make the bile flow freely. They do the work of a natural bile flow. No alcohol or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Menu For Eskimo Prisoners

Revised Regulations Sent To United Police In Barrens

If you are an Eskimo and if you are a prisoner of the R.C.M.P. away up in the Barrens and if you ask for the menu, this is what you'll get, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday and Sunday:

Two pounds of salt pork, fourteen pounds of flour, seven pounds biscuits, three pounds rolled oats or beans, one pound lard, eight ounces of tea, half gallon molasses, four ounces baking powder.

The foregoing rations are per day.

They are just announced by the Canada Gazette in a list of revised Mounted Police regulations.

The Sunflower

Was Used As Food By North American Indians In Early Days

The sunflower, which is cultivated in Canada mainly for feed for birds and poultry, for ensilage and as cattle feed, and as an ornamental plant, is generally recognized as indigenous to North America. It was used as food by the North American Indians, the seeds being eaten raw, or pounded and mixed with other seeds into flat cakes which were dried in the sun. In 1615 Champlain found the Indians, in the vicinity of Georgian Bay cultivating the sunflower. The oil which they obtained from the seeds was used for their hair.

The cheapest violins are those manufactured in Japan, where the parts are pressed out of wood, instead of being carved by hand."

New Helicopter 'Plane

B.C. Man Claims Test-Of Latest Model Is Success

A new type of helicopter flying machine is undergoing final tests by its inventor, John Hess, at New Westminster, B.C. The inventor claims it is the first successful helicopter for all practical purposes; that it can be lifted and lowered vertically in the air.

During the past 15 years Mr. Hess has studied aeroplanes and done a great deal of building and experimenting. He stated tests of his latest aeroplane had been successful, and that the machine could be kept in the air as long as he wished.

The aeroplane weighs a ton and is powered with a 210 horsepower motor. There are two propellers, one in front and the other at the rear, revolving on vertical shafts.

Each propeller has four blades and is shaped like an umbrella. The forward shaft may be thrown into a horizontal position to drive the aeroplane forward once it is in the air.

The secrets of the machine are well guarded. It is the third helicopter made by Mr. Hess. The first was a model and later he experimented with a 100 horsepower motor.

Queer Broadcast Reception

Alberta Folks Hear Musical Program Without Receiving Sets

Mysterious music that "came out of a clear sky" baffled four road workers near Dodsda, Alta., about 40 miles southeast of Edmonton. They said it was a radio program from Edmonton but there were no receiving sets "for five miles around" where they were working.

Started by the music, A. J. Thorley, R. Gierke, J. Vergette and B. Floree thought there might be an automobile in the vicinity but search revealed nothing.

They proceeded to a farm house more than a mile distant where they found Mrs. G. Sanstrom who claimed she had also heard the music but had feared to mention it, thinking people might wonder about her sanity.

As the workers were making further "investigations," the music ceased as suddenly as it had started, they reported. The music had continued as they walked toward the distant farm house.

The program, from nowhere, eclipsed the story of the Lindsay, Ont., farmer who heard melodies from his stove, and other reports of tunes coming from kitchen sinks.

SHE DREADED GOING UPSTAIRS

Woman's Fear of Rheumatic Pains

One of the many troubles that afflict rheumatic sufferers is the difficulty of getting up and down stairs. Such was the case with this woman, before she started taking Kruschen, but now she finds it no trouble. Read what she says—

"I have been taking Kruschen now for over 12 months, a half-teaspoonful in hot water first thing in the morning, and I feel a new woman. I had very painful rheumatism in my knees and back and also my head was getting very bad. I used to dread walking upstairs, now I am very thankful to say it is no trouble at all and I scarcely have any pains. I feel better in health than I have done for years."—(Mrs.) G.M.

Two of the ingredients of Kruschen Salts are notable for their work in dissolving uric acid. Other ingredients of Kruschen assist Nature to expel the dissolved acid from the system.

Decorates Ceiling With Stamps

English Barber Uses Thirty Thousand To Work Out Design

To make his customers "ceiling conscious" when being shaved, Robert Patten, an enterprising barber of Worthing, Kent, England, has decorated the ceiling of his shop with 30,000 postage stamps.

The stamps came from all parts of the world, and are arranged in intricate designs.

In the centre is the Worthing coat of arms, and the collector's own "crest," consisting of a pair of scissors, a comb and razor.

Boys Of The Roll Brigade

"Marching Along Together" are the wise roll-own-owners who insist on full satisfaction from every cigarette they roll—and get it with Ogden's Fine Cut.

Why not join their ranks? Times are better, you know, and Ogden's is the better tobacco—always cool, mild and fragrant—the one fine cut that always satisfies every member of the "roll" brigade.

Yes, you'll enjoy Ogden's and you'll appreciate the purple easy-opening ribbon that removes the Collophane on the Ogden's package. Remember, also "Chanteclair" and "Vogue" are the best papers!

OGDEN'S FINE CUT

P.S.—Your Pipe Knows Ogden's Cut Plug.

A Cheerful Note

The Lethbridge Herald says the spectre of southern prairie cattle dying by thousands this winter is vanishing. A lot of our cattle have gone to markets east, west and south, some for immediate slaughter and the rest for feeding. The open fall has served to allow those still on hand to find their own living. It would appear that we are going to come out of the livestock situation better than we thought.

Forgery losses in 1928 were estimated at \$200,000,000.

To Quickly Ease Pains of Rheumatism

"Aspirin" Tablets Dissolve Almost Instantly

In 2 seconds by step water, an Aspirin tablet starts to dissolve and go to work. Drop an "Aspirin" tablet into a glass of water. By the time it hits the bottom of the glass it is dissolving. What happens in this glass happens in your stomach.

Ask Your Doctor About "ASPIRIN"

Any person who suffers from pains of rheumatism should know this: Two "ASPIRIN" tablets, taken with a full glass of water, will usually ease even severe rheumatic pains in a remarkably short time.

Ask your doctor about this. He will probably tell you there is nothing better. For "Aspirin" tablets not only offer a potent analgesic (pain reliever), but start going to work almost instantly you take them. Note illustration of glass.

Try this simple way. You'll be surprised at how quickly pain eases. "Aspirin" tablets are made in Canada. "Aspirin" is the registered trademark of Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer on the form of a cross on every tablet.

Here and There

Outstanding success has attended the publication of J. Murray Gibbon's book, "Steel of Empire," in which is told the history of transportation in this country. The first edition of this comprehensive and finely illustrated work on Canada's history was sold early and another is now out in preparation for sale as Christmas gifts, for which it is anticipated there will be a heavy demand.

Effective January 1, 1937, contributory pensions for Canadian Pacific employees will replace the 25-year-old non-contributory system. Since the latter system's inception in 1905, the railway has paid out \$18,201,540 in pensions. Under the new plan, officers and members of the Alberta Cabinet, Deputy Ministers, civic officials, heads of most of the livestock organizations of Alberta and representatives of the Wholesale and Retail meat trade and other distinguished visitors.

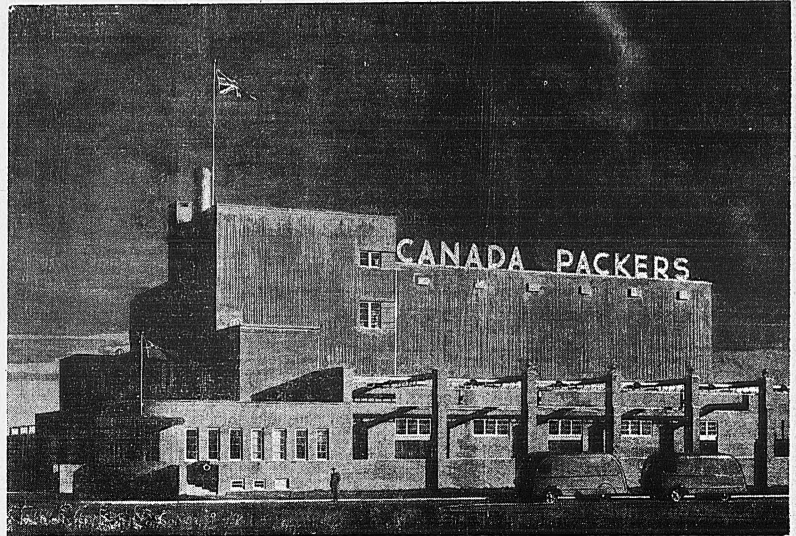

Twenty-three arrivals from British and continental ports and twenty-three departures by Canadian Pacific liners will constitute the passenger service from Saint John and Halifax during the coming winter season, it is announced from company headquarters. Season will commence November 23 and close in mid-April.

Alan M. Irwin, of Montreal, has been awarded one of the Pan-Ample Lemay prizes for his book, "and ships—and sailing-wax." It was announced recently by Quebec Provincial Secretary Piquette. The book, written during a cruise around the world in the Canadian Pacific liner Empress of Britain, received the only English award in the Lemay prize list, "and ships—and sailing-wax," which is published in Canada and Great Britain. Macmillan's, deals with the lighter side of cruising, and is a valuable, if informal, aid to would-be travellers.

Two Canadian Pacific scholarships at L'Ecole Polytechnique and L'Ecole des Hautes Etudes Commerciales respectively have been awarded to Gilbert Proulx, 18, son of Arthur Proulx, warehouseman, C. P. Express Company, Montreal, and Roger Bussiere, 19, son of Philip Bussiere, trucker and checker, Placé Viger freight office, Montreal. Each is tenable for five years.

J. C. Patterson, who succeeds Sir George McLaren Brown, European general manager, Canadian Pacific Railway, London, England, with the title of European manager, was born at London, Ont., and educated at the Model School, Toronto; Bishop College, St. Catharines; and the Royal Military College, Kingston, and served overseas with the Canadian Field Artillery from June 1916 to September, 1919. During 1925 Mr. Patterson was general agent in Toronto for the steamship department and has also held the positions of assistant general agent, New York; general agent, passenger department, Philadelphia; and general agent, steamship department, Chicago.

The annual competition sponsored by the Canadian Travel Bureau, Canadian Pacific and Canadian National Railways, for the most beautiful and for the largest maple leaves is now open to the public. The leaves must be gathered in Canada and sent from a Canadian point. Prizes totalling \$215 will be distributed as follows:—Most beautiful leaf, \$105, \$40, \$20, \$10 and \$5. Largest leaf, \$30 and \$10. Contest closes November 1 and entries should be forwarded express paid to Canada's Maple Leaf Contest, P.O. Box 2500, Montreal.

NEW PACKING PLANT FOR EDMONTON

Canada Packers' \$1,000,000.00 Plant officially opened

The new, million dollar packinghouse, erected last Summer in Edmonton, Alberta by Canada Packers, Limited, was officially opened on Wednesday, November 4th, by Mayor Jos. A. Clark, K. C., in the presence of over five hundred invited guests including members of the Alberta Cabinet, Deputy Ministers, civic officials, heads of most of the livestock organizations of Alberta and representatives of the Wholesale and Retail meat trade and other distinguished visitors.

Speakers at the opening ceremony, which was staged in the enclosed loading platform of the plant, were Premier William Aberhart; R. A. Wright, President of the Western Canada Livestock Union; Hon. Senator Arthur Meighen and J. S. McLean, President of Canada Packers Limited.

The plant is an outstanding example of what can be done in an industrial building to combine pleasing appearance with utility and efficiency. It is equipped with the most modern machinery and will have a killing capacity of 4,500 hogs weekly, besides cattle, sheep and lambs.

All speakers at the official opening ceremonies congratulated Canada Packers upon their wisdom in establishing so fine a packing plant in Alberta. Mr. McLean stated it is his conviction that Alberta, which already stands second in hog production among the provinces of the Dominion will within a short time stand first. "When this expectation is realized," he said, "all the packing house facilities in Edmonton, including Canada Packers', will be less than sufficient to handle the hogs."

After the close of the opening ceremonies, the plant was thrown open to the public and was viewed with interest by thousands of visitors from Edmonton and the surrounding district.

The erection of this important plant at this time is concrete evidence of the faith of Canada Packers Limited in the future of Alberta, and of the West generally. It also gives to the livestock producers of Western Canada further access to the markets of Eastern Canada and of Europe, which are served extensively by Canada Packers Limited.

PARTY FOR NEWLY-WEDS

A party was given on Tuesday evening at the home of Mr. and Mrs. P. G. Peterson in honor of the newly weds, their son Clifford and daughter-in-law, nee Royal Mitchell. About sixty guests were present, the evening being spent in dancing.

At the close a fine lunch was served. All left wishing Mr. and Mrs. C. Peterson a very happy married life.

Mr. A. V. Youell returned on Sunday morning.

Cereal-Chinook A. T. A. Regular Meeting Held

With Mr. Denney as chairman, the regular meeting of Cereal-Chinook A. T. A. Local was held at the home of Mr. Meeres in Chinook on Saturday, November 7th.

Following a few corrections to the constitution, a motion that the salary schedule be a subject for study at the next meeting was carried. The remainder of the time was spent in an interesting discussion of experiences with enterprises after which Mr. Denney declared the meeting adjourned.

Secretary
M. Laidlaw

Mr. Hobson of Alex is visiting with friends and relatives in this district.

Mr. and Mrs. Butts of Hanna visited at the home of Mrs. J. Massey on Sunday.

Mr. and Mrs. A. Anderson and daughter Evelyn visited at the Hobson home at Lees last week.

Mr. W. Falconer, Mr. Frank Smith and Mr. Dick Goodwin are constructing a government dam near the home of Mr. W. Falconer.

The young people of the district attended "The Youngstown's Sailors Ball." The hall was crowded to capacity and every one enjoyed a good time. In a amateur hour after supper was the main feature of the evenings entertainment.

Mr. and Mrs. Anderson and daughter Evelyn are planning to move to Lees where they will make their home.

Mr. and Mrs. Geo. Thompson and family of Coltholme district are visiting with relatives at Nacu over the weekend.
